

Smart Array: Battery status on slot	Allocation units VMFS	Free Space on VMFS	VM Power State	Device uptime	ESXi name
Smart Array: Cache \$2 status on slot	Description of VMFS	Used Memory %	ESXi subsystem description	ESXi Build	
Smart Array: Controller status on slot	Total size of VMFS in blocks	Free Memory	ESXi subsystem status	ESXi Version	
Smart Array: Logical volume Status	Total size of VMFS	Total Memory	ESXi subsystem type	ESXi memory available	
Smart Array: Physical drive status	Used disk on VMFS in blocks	Memory Used	VM CPUs Number	ESXi memory size	
Smart Array: Physical drive temperature	Used disk on VMFS	VM Guest OS	VM Memory Size	ESXi memory used	
Smart Array: Data Retrieval	Used Space % on VMFS	VM Guest State	Device name	ESXi physical CPU numbers
