

Your Entire IT Operation. One Intelligent Platform.

CERNE™

AGENTIC INTELLIGENCE PLATFORM FOR CLOUD MANAGEMENT

Unify infrastructure, clouds, and operations with CERNE—
an AI-powered platform that replaces 50+ tools,
accelerates resolution, optimizes cost, and drives
sustainable IT.

Unify Everything

Manage physical infrastructure, hybrid & multicloud environments, and services from one intelligent control plane.

AI That Works for You

From insights to actions—AI Copilot delivers RCA, recommendations, and autonomous resolutions in real time.

Governed Autonomous ITOps

Policy-driven, auditable, and human-approved automation with enterprise-grade guardrails.

EVERYTHING YOU NEED. ONE PLATFORM.

DCIM

See and manage your entire physical infrastructure.

- Capacity & Power
- Asset & Network
- Environment Monitoring
- Planning & Visualization

HCMP

Govern hybrid and multicloud from one control plane.

- Discovery & Inventory
- Cloud & K8s Management
- Self-Service Catalogs
- Policy & Orchestration

AIOps

Turn noise into clarity. Resolve incidents faster with AI.

- Full-Stack Observability
- AI Correlation & RCA
- Anomaly Detection
- Auto Remediation

FinOps

Optimize cost at every layer with real-time visibility.

- Cost Analytics
- Showback / Chargeback
- Budgeting & Forecasting
- Optimization Engine

GreenOps

Drive sustainability and reduce your carbon footprint.

- Sustainability Metrics
- Carbon Analysis
- Power Optimization
- EOL & Efficiency Tracking

POWERED BY AI. BUILT FOR ENTERPRISE.
