

LUMITM

The AI Coworker For ITOps

Drive Efficiency. Resolve Faster. Reduce Costs.

LUMI sits on top of your existing tools and data to deliver **conversational, agentic and autonomous** ITOps—turning complex operations into simple conversations.

Ask LUMI. Get Answers.
Take Action.

Autonomous by Design

LUMI doesn't just alert — it diagnoses, decides, and remediates, so your team acts on outcomes, not tickets.

Lower operational cost

Faster resolution

Smarter, proactive ITOps

What LUMI Delivers

Conversational ITOps

Ask anything in plain English. Get instant answers, insights and actionable guidance.

Agentic Automation

LUMI doesn't just answer—it acts. Automate tasks, orchestrate workflows and close the loop.

Faster RCA & Resolution

AI-driven correlation, root cause analysis and guided remediation reduce MTTR significantly.

ChatOps Everywhere

Work where your team collaborates—Slack and Microsoft Teams—with alerts, actions and approvals.

Noise Reduction

Suppress non-actionable alerts and auto-resolve known issues to reduce L1/L2 load.

Governed & Secure

Built-in guardrails, RBAC and full auditability for safe, compliant automation at scale
