RACK & CABINET MANAGEMENT

Manage every rack from anywhere

Check any cabinet's layout, temperature, device health, power and free space from your browser, then open a device's remote console in one click.

Live cabinet view: front and rear views, heatmap, cabinet details and PDU power.

~40%
More usable capacity
Unlock stranded space and power.

15–25%
Better rack utilization
Tier III colocation case study.

Up to 25%
Less planning time
No more manual spreadsheets.

WHAT YOU CAN DO

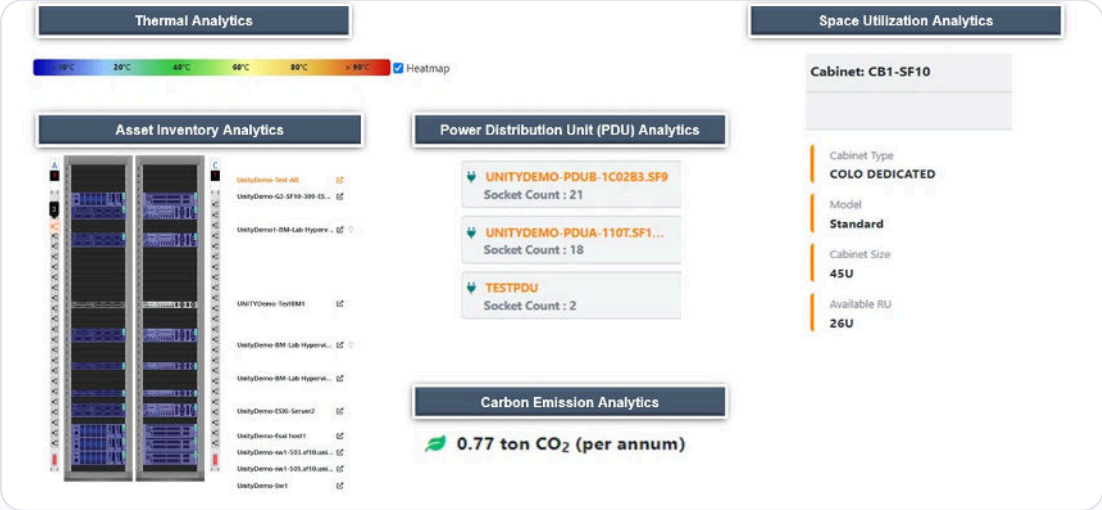

Key capabilities

Front and rear views
Both sides of the cabinet, down to each rack unit.

Temperature heatmap
Hot spots from below 10°C to above 90°C at a glance.

One click to any device
Open device details and remote management consoles.

Power and carbon
Every PDU with socket count and power trend, plus CO_2 per year.

Five cabinet analytics: thermal, asset inventory, PDU, space utilization and carbon.

WHY IT MATTERS

Defer capex
Use stranded space and power before you build or lease.

Fewer site visits
Check and act on racks remotely.

Plan with confidence
Free rack units and power headroom at a glance.
