INDUSTRY USE CASE · GOVERNMENT & PUBLIC SECTOR

Modernize operations with control and accountability

Public sector teams must keep citizen services running, meet energy targets and show exactly who changed what. UnityOne DCIM can run on-premises and keeps every action governed and recorded.

Rack PDU sensor dashboard: temperature, humidity and airflow.

The challenge

- Aging facilities and mixed hardware across sites
- Energy and carbon targets with limited data
- Tight budgets and pressure to defer new build
- Strict access control and audit needs

How UnityOne DCIM helps

- On-premises or SaaS deployment, with multi-tenancy
- Rack-level temperature, humidity, airflow and power
- Recover stranded capacity before you expand
- RBAC, approvals and a full audit trail

CAPABILITIES USED

On-premises option
Run DCIM in your own environment.

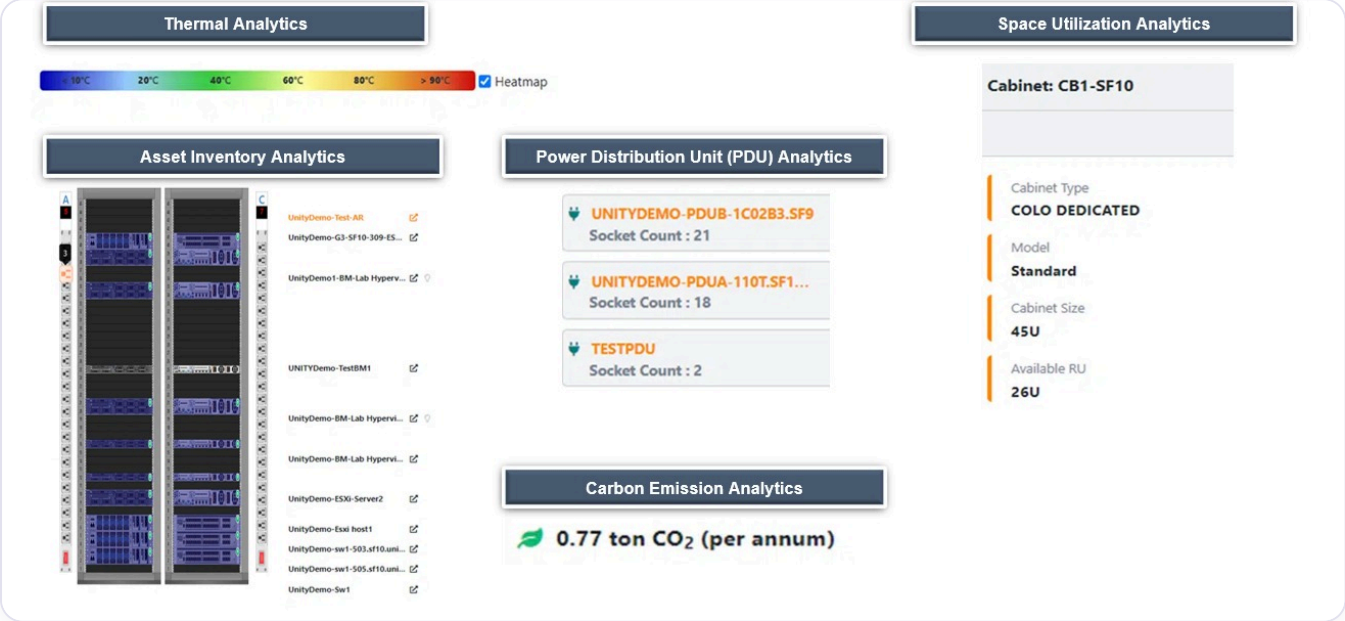

Environmental monitoring
Temperature, humidity and airflow from rack PDU sensors.

Carbon reduction engine
Benchmark emissions and get recommendations.

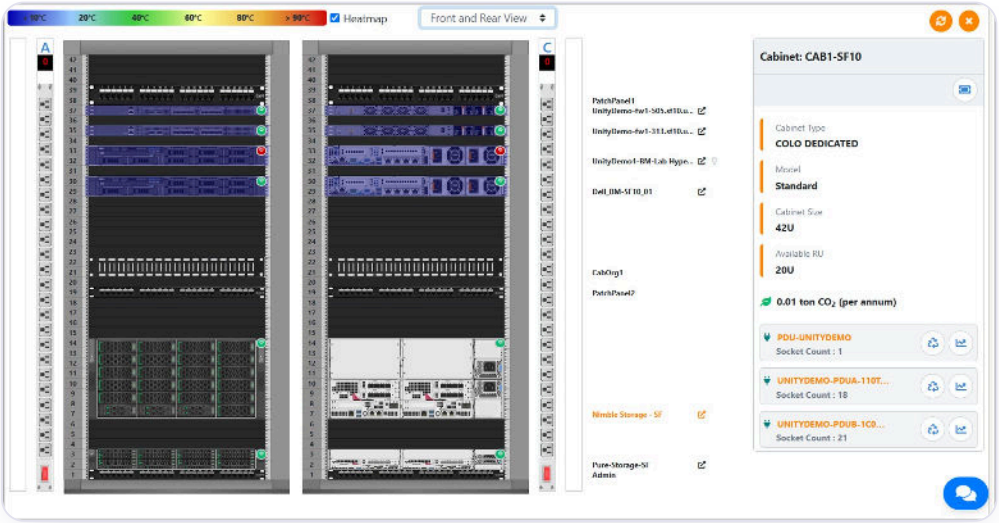

Capacity planning
Free rack units and power headroom at a glance.

RBAC & audit visibility
Role-based access and a record of every action.

AI with private guardrails
A private AI environment with human approval.

Cabinet analytics, including estimated carbon per year.

Remote cabinet view: free space, temperature and power.

EXPECTED OUTCOMES

What teams can expect

~40%
More usable capacity

15–40%
Lower carbon footprint

15–30%
Idle infrastructure eliminated

Ranges are UnityOne AI published DCIM impact figures from unityone.ai. Actual results depend on each environment. This sheet describes a typical scenario; it is not a specific customer result.

WHY UNITYONE

Deploy your way
On-premises or SaaS, with multi-tenancy.

Energy and carbon data
Per cabinet, per site, per year.

Accountable AI
Private AI, human approval and a full audit trail.

GETTING STARTED

STEP 1
Explore
Try DCIM hands-on in the UnityOne AI Playground.

STEP 2
Discover
Run agentless discovery on a site and see it on one map.

STEP 3
Expand
Roll out to every site, cloud and team at your pace.
