INDUSTRY CASE STUDY · LOGISTICS & TRANSPORTATION

One FinOps view across ~2,000 hybrid resources

A Europe-based logistics company ran workloads on VMware, Hyper-V, Azure and AWS with no consolidated view of cost. UnityOne AI unified visibility, allocation and optimization, and cut cloud costs by 25–35%.

One cost intelligence hub across hybrid infrastructure.

The challenge

- No consolidated view of hybrid and multicloud infrastructure
- Resource and cost oversight split across VMware, Hyper-V, Azure and AWS
- No dedicated FinOps operating model
- Teams struggled with allocation, budgeting, optimization and accountability

How UnityOne FinOps helps

- Unified discovery and visibility across VMware, Hyper-V, Azure and AWS
- Normalized cloud and infrastructure cost data
- Cost allocation, tagging, showback and chargeback workflows
- Cost calculators, budget monitoring, anomaly detection and optimization insights
- AI-assisted rightsizing, savings recommendations and automated remediation

CUSTOMER CASE STUDY

A European logistics company gains unified FinOps across ~2,000 resources

Deployed through a GSI partnership, UnityOne AI gave a Europe-based logistics company unified FinOps visibility across VMware, Hyper-V, Azure and AWS, and a FinOps operating model it did not have before.

CAPABILITIES USED

Unified discovery
VMware, Hyper-V, Azure and AWS.

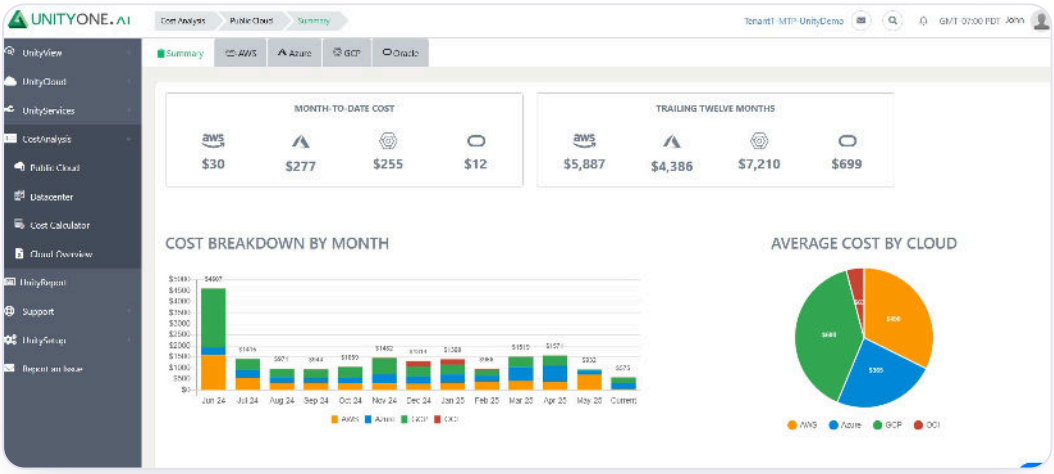

Allocation & tagging
Showback and chargeback workflows.

Budget monitoring
Cost calculators and budget alerts.

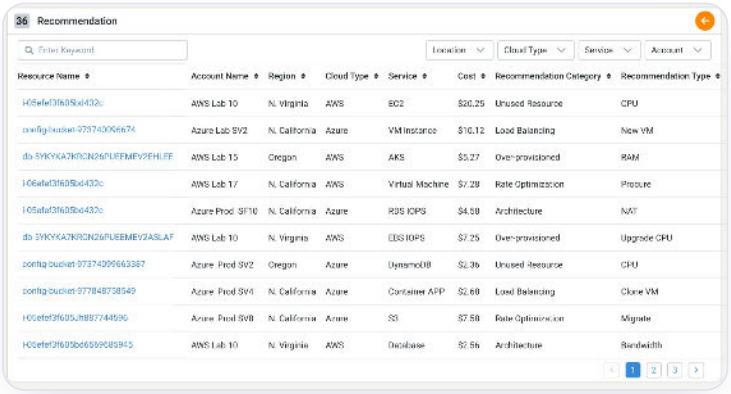

Anomaly detection
Spikes caught early.

AI-assisted rightsizing
Savings recommendations.

Automated remediation
Lifecycle from request to retirement.

Public cloud cost in one summary.

AI recommendations for rightsizing and savings.

RESULTS

What the company achieved

25–35%
Cloud-cost savings

~2,000
Resources in one view

4
Platforms unified

7-stage
VM lifecycle with cost insights

Results as published on unityone.ai. The company also gained instant visibility across platforms, better accountability across business units and infrastructure owners, and more proactive FinOps operations.

WHY UNITYONE

Hybrid by design
Private and public cloud together.

Proven savings
25–35% lower cloud costs.

Lifecycle control
From request to retirement.

GETTING STARTED

STEP 1
Explore
Try FinOps in the UnityOne AI Playground.

STEP 2
Connect
Link two or three cloud accounts and a data center.

STEP 3
Optimize
Set budgets and act on the first recommendations.
