CERNE™ GENAI BY UNITYONE AI

Your AI coworker for cloud and IT operations

Ask questions in natural language, uncover insights across your hybrid and multicloud environment, hand work to AI agents, and choose how much to automate.

One assistant across DCIM, AIOps and FinOps: devices by type, noisy hosts, and Azure cost by service.

4 domains

One assistant

DCIM, AIOps, FinOps and GreenOps, plus hybrid cloud management.

Plain language

No query skills needed

Answers with tables, charts and summaries.

Private LLM

Your data stays yours

Guardrails, permissions and human approvals.

The problem it solves

- Answers spread across dozens of dashboards and tools
- Reports built by hand every week
- Too few specialists for a growing hybrid estate

WHAT YOU CAN DO

Key capabilities

Ask your cloud anything
Telemetry, topology, incident, cost and sustainability data in one answer.

Investigate incidents faster
Analyze alerts, correlate signals, find root cause, suggest a fix.

Turn data into decisions
Reports, forecasts and recommendations on request.

Orchestrate agents via conversation
Agents run with built-in policies, permissions and approvals.

An AI coworker for every operator
No specialist tools or CloudOps expertise needed.

Security and guardrails
A private AI environment with predefined guardrails.

Questions you can ask

- How many devices are there in my organization?
- Give me top noisy hosts
- What is the current month's cost of Azure Cloud?
- Which data center emits the highest carbon?

GET STARTED

Meet your AI coworker

Ask the UnityOne AI assistant your own DCIM, AIOps, FinOps and GreenOps questions in the Playground, or talk to our team about bringing it to your operations.
