CERNE™ HCMP BY UNITYONE AI

AI-powered Hybrid Cloud Management

Use contextual AI and governed agents to discover, govern, provision, operate, optimize and retire hybrid-cloud services across private cloud, public cloud and Kubernetes.

One dashboard for data center, private cloud and public cloud resources, alerts and cost.

50+
Siloed tools consolidated

2–3x
Higher engineering productivity

50–60%
Lower operational overhead

CUSTOMER STORY

A leading financial services company cut operational overhead by 60%

By consolidating hybrid cloud operations on UnityOne AI HCMP, with a governed service catalog, agentic orchestration and centralized policy guardrails.

WHAT YOU CAN DO

Key capabilities

Unified multicloud discovery
Private cloud, public cloud, Kubernetes and data center in one view.

Agentic orchestration
Policy-controlled, multi-agent workflows across clouds.

AI-based FinOps
Anomaly detection, next-best actions and automated remediation.

Self-service catalog
Approved blueprints with RBAC, approvals and expiry rules.

Lifecycle management
Provisioning, rightsizing, scaling, patching and backup.

GenAI assistant
Ask about your clouds, catalog and resources in plain English.

HOW IT WORKS

1 · DISCOVER

See every cloud

AI-powered discovery across private, public and Kubernetes.

2 · GOVERN

Set guardrails

Policies, RBAC, approvals and compliance, everywhere.

3 · AUTOMATE

Let agents act

Provision, optimize and remediate with governed agents.
