INDUSTRY USE CASE · TELECOM, MEDIA & TECHNOLOGY

Ship services faster across every cloud

Technology and telecom teams run fast-changing platforms on several clouds and Kubernetes. UnityOne HCMP gives engineers self-service and automation while platform teams keep cost and policy under control.

Public clouds side by side with instances, cost and alerts.

The challenge

- Many clouds, clusters and consoles to manage
- Engineers waiting on platform teams for environments
- Cloud spend growing faster than usage
- Inconsistent tagging that breaks cost reporting

How UnityOne HCMP helps

- Self-service catalog from approved blueprints
- Agentic DevOps automation with Ansible and Terraform
- Kubernetes and service mesh management
- AI-based FinOps with automated remediation

CAPABILITIES USED

Kubernetes & microservices
Lifecycle management, including Istio and App Mesh.

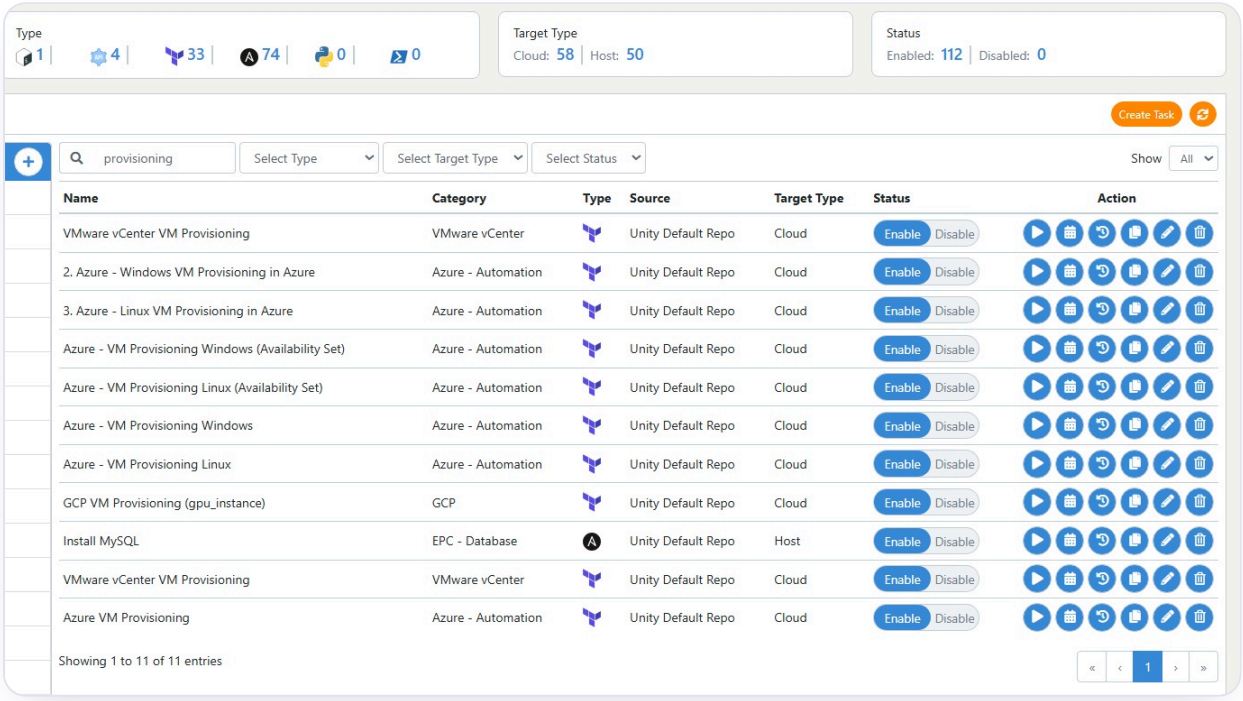

DevOps automation
Event-driven workflows and reusable agents.

Self-service catalog
Engineers order what they need, governed.

AI-based FinOps
Anomalies, recommendations and remediation.

Multicloud view
AWS, Azure, Google Cloud and Oracle Cloud.

GenAI assistant
Ask about clouds and resources in plain English.

Ready-made provisioning tasks across VMware, Azure and GCP.

EXPECTED OUTCOMES

What teams can expect

2–3x
Higher engineering productivity

90%
Routine L1/L2 tasks automated

50+
Siloed tools consolidated

Figures are UnityOne AI published HCMP impact ranges from unityone.ai. Actual results depend on each environment. This sheet describes a typical scenario; it is not a specific customer result.

WHY UNITYONE

Built for scale
Many clouds, clusters and teams.

Engineer-friendly
Self-service and APIs, not tickets.

Cost-aware
FinOps built into every action.

GETTING STARTED

STEP 1
Explore
Try HCMP hands-on in the UnityOne AI Playground.

STEP 2
Connect
Discover one private and one public cloud in a single view.

STEP 3
Expand
Publish a catalog and roll out policies to every cloud.

GET STARTED

See Cerne™ HCMP in action

Explore the platform hands-on in the UnityOne AI Playground, or talk to our team about your private cloud, public cloud and Kubernetes estate.
